SUMMARY

I have always been a very expressive person with an appetite for new challenges. As a trained chef, planning and preparation were required to execute a series of complex steps. Add a dash of creativity, and something truly spectacular can happen. I bring these same skills and a passion for reinvention to my work as a web developer.

EXPERIENCE

General Assembly, Remote | Software Engineering Fellow

APRIL 2020–PRESENT

- Full-Stack engineering immersive completed in 3 months that focuses on real-world web development.
- The course develops and teaches utilization skills including HTML, CSS, JavaScript, Git/GitHub, MongoDB, Node, Express and React.

Spectrum Retirement Communities, Chandler, AZ | Lead Cook

SEPTEMBER 2017–NOVEMBER 2019

- Opened 3 senior health care kitchens.
- Trained and developed staff to adhere to hospitality and health care standards.
- Kept track of budgets, labor and inventory using multiple programs that company provided.
- Advised on event planning and communicated with residents on feedback on a regular basis.
